

PE and Sport Grant Expenditure Report 2015 - 2016

The Government has allocated additional funding to facilitate improvements to the provision of PE and Sport in schools for the benefit of children aged 5 – 11 years old.

Number of pupils and pupil premium grant (PPG) received 2013-2014	
Total number of pupils on role	210
Total amount of PE and Sports Grant received	£8876

Nature of support 2015 - 2016

Provision

The range of provision the school has provided this year includes:

- The school has been able to use the grant to pay towards hiring a member of staff to deliver PE during PPA time.
- The school has been able to send two members of staff on the Create Develop – REAL PE course.
- The school has had the new Premier League football kit branded with the school name for the children to wear at tournaments.
- The school paid for a G and T PE child's Southampton Athletics Club membership fee.
- The school has been able to heavily subsidise our after school Grant Fielder Star Cycling Club.
- The school has been able to order and update some of our PE equipment.
- The school has been able to order playtime equipment for the children to use.

Impact

By employing a member of staff to deliver PE, we have been able to provide consistency in our teaching of PE and ensuring continuity for our children. This is particularly important for the younger children. In addition to this this member of staff is delivering the REAL PE scheme of work across the school due to the training they have attended. This is ensuring that our children are receiving good quality skills based PE sessions to facilitate their learning of the key fundamental skills. This is crucial for the younger children and their physical development and continues to have an impact across all year groups, building on these key fundamental movement skills throughout their physical development.

With regard to the branding of the new Premier League kits that the children were provided with for tournaments, the children now have greater team cohesion when attending

external competitions and tournaments.

Enabling any of our G and T children to further their passion and ability in sport is extremely important to us as a school and we are always happy to make sure that funding is not an issue for our parents with regard to membership fees for external clubs. It is very important to nurture these talented individuals and provide them with the specialist training they need in order to further a potential participation or even career in their chosen sport.

Grant is a world class free-rider, and by using some of our PE funding we have been able to heavily subsidise his after school Star Cycling club for our pupil premium children who wanted to attend. The club has been invaluable in building not only their proficiency in cycling but in enhancing their self-confidence and social skills. All of which are vital life skills which as a school, we feel are crucial for our pupils based on our catchment area being in an area of deprivation. Grant is a fantastic role model for our children and inspires them to follow their dreams.

Part of our funding has been spent on updating some of our PE equipment and playtime equipment. It is vital that we keep our PE resources up to date and enable all staff to deliver good quality lessons to our children through having access to good quality equipment. In addition to this, Year R children will be provided with a box of PE equipment to facilitate their physical development in relation to meeting their EYFS requirements. With regard to the playtime equipment, it is important to provide the children with a range of play equipment for them to develop their physical skills in a non-structured environment such as break and lunch times to promote physical and mental well-being and increased opportunities for varied social interaction.

Conclusion

We feel that at Swaythling Primary School the additional funding for PE and Sport has been put to extremely good use and has had a very positive impact on our children and their participation in sport and PE. We will endeavour to continue to use the funding to develop our provision and standards in sport and PE, thus providing our children with a varied curriculum delivered by teachers who are confident and very proficient in the subjects and activities they are delivering, as well as enabling the children to develop their own physical development through play and specific sporting settings.
