## Weather symbols

Sunny

Rainy

Snowing

Cloudy

Thunder and lightning

Weather

The weather is what it is like outside.

## Physical Features

Physical features are things that are natural on the Earth.

beach

mountain

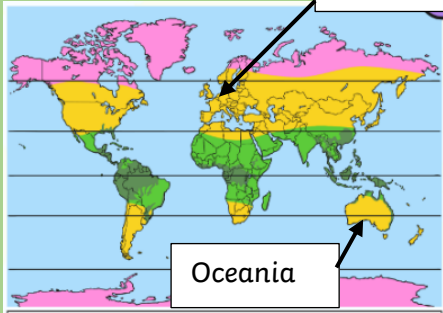

desert

sea

## Hot and Cold

There are hot and cold areas in the world, which means the temperature in each country is different.

We live in the yellow area and so does most of Australia, although some parts of it are in the warm and hot areas!

**The UK**  
**Northern Ireland**
