

Fire! Fire!

Fire of London Timeline: 2nd-5th September 1666

Sunday Morning	Sunday Evening	Monday	Tuesday	Wednesday	Thursday
The fire started in the bakery on Pudding Lane. The fire spread quickly, and people started to flee their houses.	People started pulling houses down to stop the spread.	The fire spread close to the Tower of London.	St Paul's Cathedral was burned down in the fire.	The fire started to slow down.	The fire was finally put out.

1066

Now

Samuel Pepys

Samuel Pepys is most famous for keeping a diary during The Great Fire of London. He was also the person who warned the King about the fire.

The Fire of London

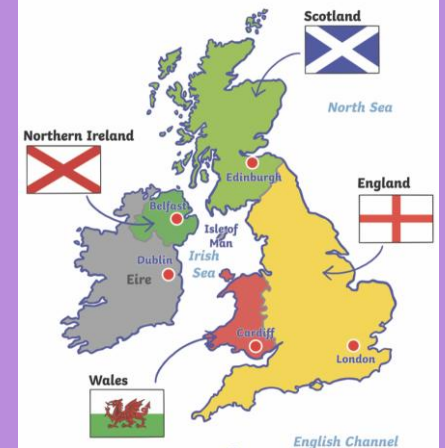

The fire started in Thomas Farriner's Bakery on Pudding Lane. It lasted 4 days, burned down 13,000 houses and 87 churches and 6 people died. The fire was so big because the houses were made from wood and straw and they were very close together, so it spread very quick. After the fire, the houses were rebuilt using bricks.
